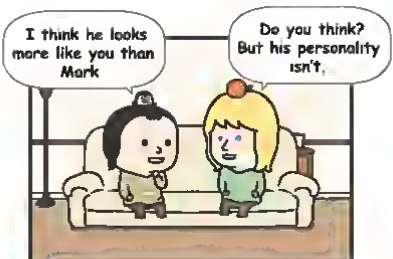
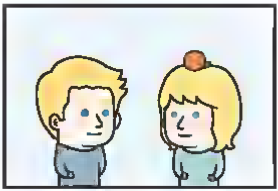
Penguin Loves Mev In the UK

Like Mom, Like Son



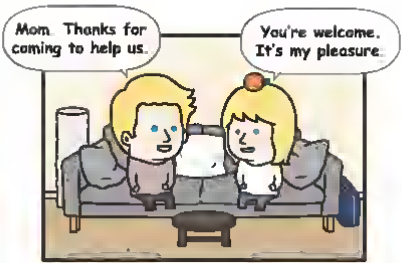
My mother in law, Gail says this.



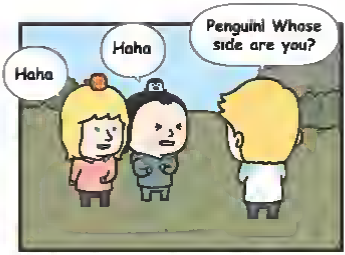
But I often find similarities between them

I love my mother in law.

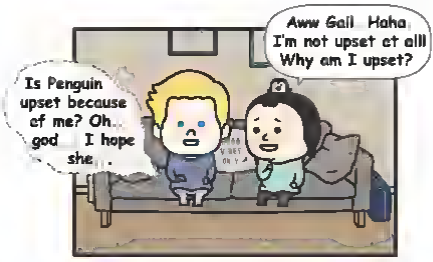
I'm not saying this because she's my mother in law. Honestly, I think she's a very nice person.



She's very kind and always helpful.

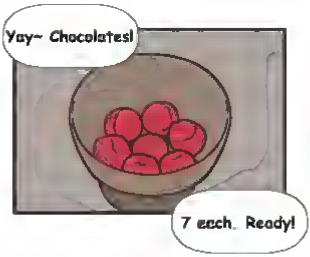


It's so jolly when we are with her.



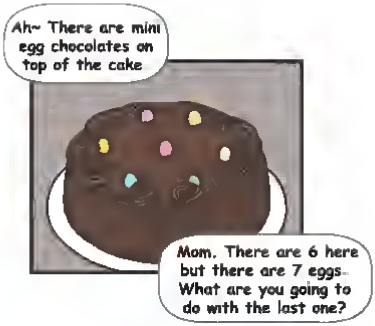
She's very thoughtful in many ways.

Anyway, I found one very interesting personality trait she has.



It is that she is very particular about snacks.

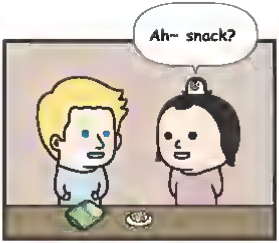
Any chocolates should be divided even. That's her mote. So all the family are used to dividing them very evenly.



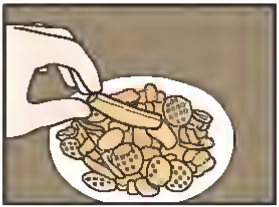
Ah~ There are mini egg chocolates on top of the cake
Mom. There are 6 here but there are 7 eggs. What are you going to do with the last one?

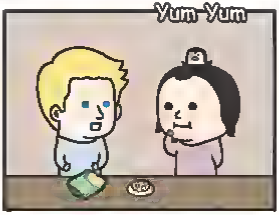
So we joke like this too.

Anyway, back to the story
that I wanted to say.



Ah~ snack?

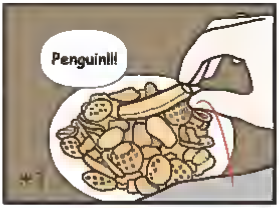




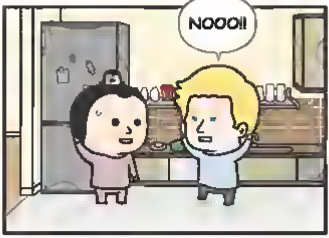
This delicacy.

Come on~

Why? Let me have one!



It's hard to explain But .



That delicacy definitely came from Gall.
